

MALAYAN  
HIGH SCHOOL OF SCIENCE  
A MAPÚA SCHOOL

*Imagine. Create. Exceed.*

## Malayan Science education: Empowering today's youth for the future

A leading science high school in Manila, Malayan High School of Science puts a premium on junior high school learning by offering specialized education designed to provide a strong foundation for higher levels of learning and future careers.

Its cutting-edge curricula equip students with the advanced knowledge and skills in Science, Technology, Engineering, and Mathematics (STEM), as well as in the arts enabling them to excel in areas including research, robotics, coding and multimedia.

Delivered both traditionally and digitally through up-to-date methods and powerful educational technologies, Malayan Science's academics go beyond the normal teaching and learning to present students with developmental opportunities in a wide range of disciplines, molding them into competent and college-ready individuals.

Learning at  
*Malayan Science*

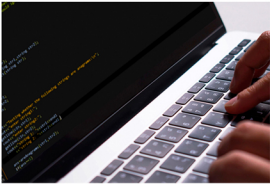

# Empowered to Create Opportunities

Our advanced STEM education provides students with an enriching learning experience with various lessons and activities.

Students are taught and trained in Robotics classes in partnership with First Eduspec Inc., sharpening their minds to design, create, and compete even in the global arena.

Malayans master the digital language through Coding subjects powered by Mapúa University's School of Information Technology.

# Limitless

## Potential with Digital Skills

A pioneer in digital education in junior high school, Malayan Science breaks barriers in learning by utilizing the learning management system Cardinal EDGE, powered by its mother school Mapúa University, for lectures, laboratory, research, and other academic activities.

Malayan Science provides its students access to more than 30 of the latest online licensed and open-source educational tools and subscription-based and open-access resources.

Students also have remote access to the school's rich and powerful digital resources that can be used for research and reading activities. Currently, Malayan Science has subscriptions to 13 e-Book and e-Journal databases and to a digital newspaper and magazine library.

# *Building* Imagination, *Fueling* Creativity

At Malayan Science, students' creativity is supported with skills development in animation, digital design, 3D modeling, and filmmaking through our Multimedia subjects.

## *Nurtured* to Succeed

Our students train with specialized coaches and instructors to sharpen their knowledge, hone their crafts, and master skills in both academics and sports.

# Scholarships and Discounts

Deserving and qualified students enjoy benefits and discounts from Malayan Science's scholarship offerings.
